FINANCIAL COACHING

TG

COULD YOU USE SOME COACHING TO GET YOUR FINANCIAL LIFE IN ORDER?

Your college, with support from the state of Texas, is offering you access to a great resource to help you make good money management moves — so you can concentrate on achieving academic success.

TG, in partnership with the Texas Higher Education Coordinating Board, offers a Financial Coaching service conducted by Association for Financial Counseling and Planning Education, or AFCPE, trained counselors who can provide you with the resources, tools, knowledge, and motivation to help you reach YOUR money management goals.

You have been chosen to participate in this Financial Coaching service, which is provided free of charge. Set up a Financial Coaching session with TG today! The session will be held via the Web at a date and time that works for you. To schedule your appointment, visit: www.TG.org/FinancialCoaching.

Take advantage of the benefits of Financial Coaching. TG looks forward to discussing your circumstances and helping identify steps you can take to reach your goals!
